

# PUT YOUR KIDS ON THE FAST TRACK

Your children deserve a head start. Enrich them with skills that build self-esteem and confidence.

**E**very parent wants the very best for their child so that they thrive and do well at school. FasTrackKids® understands this perfectly. It has programmes that help children – pre-schoolers to 8-year-olds – develop their creativity, communication, critical thinking and collaboration skills through fun-filled interactive activities.

FasTrackKids® also has US-based programmes. Lessons are delivered via the FasTrack Learning Station®, a unique system that works through computer technology, LCD projection and an interactive white-board. Designed to engage children in the learning process, it also enables instructors to focus on each child's developmental needs. An 8:1 student-teacher ratio allows teachers to pay personal attention to each child.

Programmes are tailored for the following age groups:

## 6-24 MONTHS

Research shows that children who learn how to communicate through gestures early begin to speak with a larger vocabulary.

The FasTrack Signing programme teaches parents and kids how to communicate through gestures, even if the child is able to speak. Based on the American Sign Language (ASL), you both learn gestures through songs, small

activity groups and large group interactions. ASL practices may lead to increased IQ and a higher level of speech and language development in children.

## AGES 2-4

FasTrack's Music curriculum is based on Kindermusik's award-winning international programme, ABC Music & Me. Your child will discover a world of fun through group activities which stimulate learning and help develop self-esteem and social skills.

## AGES 3-4

The FasTrack Tots programme consists of 12 modules with a range of topics, including creativity literature, earth sciences, goals and life lessons, mathematics, natural science, speech, drama and art. Your child will enjoy varied and multi-faceted experiences that accelerate learning. He will also be encouraged to present what he has learnt to the class, which trains his confidence, presentation and communication abilities, which will serve him well as an adult.

## AGES 4-6

The FasTrack Music curriculum combines group activities that enhance a child's self-esteem and develop social skills. Each class has maximum of eight children so everyone receives personal attention.

## AGES 5-8

The FasTrackKids programme of 12 modules are delivered via varied and multi-faceted learning experiences. Through guided discussions, interactive hands-on projects and classroom presentations, your child picks up presentation skills and learns to conduct himself with the proper decorum.

## Is your child ready for this?

Enrol for a trial class at \$50 during the Young Parent's Fiesta. The \$50 registration fee will be waived if you sign up after the trial class. Sign up for two terms and enjoy 10% OFF term fees and a waiver of the registration fee.
